

Description

For those who want their monitors wall-mounted in their work areas, AFC Industries has developed the Heavy Monitor Wallmount. Built to easily accommodate the BARCO Coronis Uniti monitor series, the 16 inch steel Wallmount plate, for standard wall stud installation, provides the most stable mounting environment for these large monitors.

Features

- The steel mount come equipped with a 200 x 100mm VESA compliant mounting plate.
- The actual mount is 13 inches high and allows you to adjust the height of the monitor, in 1 1/8 inch increments, up to 4.5 inches.
- The bracket has 20° of tilt to further aid viewing angles.
- Built in spring tension adjustment for different weight monitors.
- Left and right bracket pan depends upon the size of the monitor used.

Specification

- Overall sizes: 18"W x 6.5"D x 13"H

About AFC Industries, Inc.

AFC Industries is a leading designer and manufacturer of a complete line of high-quality medical and radiology reading room furniture, built to enhance performance, comfort and productivity. Our advanced design, quality workmanship, and excellent customer service, set the pace for the industry.

At AFC Industries, we believe that when you work comfortably, you work more efficiently — this philosophy drives the way we design all our workstations, LCD monitor arms, wall mounts, and ergonomic accessories.
